1. Communication: During the reporting period Subject sent 54 letters numbered 1 to 54 to the RIS. The RIS sent Subject 44 WVL messages on 1, 14, 21 and 28 August. At times Subject ignored the 1 and 28 August broadcasts. On 14 August he was able to see for TYPELINE and had an opportunity. With Subject's aid MJO monitored the primary and secondary frequencies on 1 August only (see below).

2. Meetings: Subject was met on 4, 11 and 19 August.

3. Developments: The Berlin State Department of the action in the case for the reporting period. The RIS GWT of 14 August was a much more terse request than usual; while the August broadcast was a relaxed version of the 14 August message. Subject was very busy during the period, both because of the high put of all new addresses by the RIS and his substituting for the Valke TYPELINE representative during the latter's vacation during the first two weeks in August. Subject only reported to the RIS that he was handling the above mentioned job, and the RIS must know involves access to court AIS officers in the area. To date the RIS has shown no interest at all in what Subject found out in and around Valke.

4. The call of TYPELINE as set forth in the 7 August GWT shows that the RIS is interested in some persons in ANARASIMA personalities in Paris. It is noted that the RIS hopes that Subject will find out about these personalities. TYPELINE has been ANARASIMA for some time for TYPELINE is a trained pilot and is a pilot that ANARASIMA will be terminated soon and will probably be sent to TYPELINE where he will have to be in contact with Subject. It is interesting to note that Subject now believes very firmly that ANARASIMA was for some West German intelligence service; his source for this is TYPELINE.

5. Planning: We continue to hope for establishing contact with the RIS in either West Germany or Austria through Subject.
